## MEETING ROOM

Enhance meeting collaboration with SyncBolt's AV solutions, seamlessly supporting 6 to 8 participants. With 4K autofocus cameras, AI tracking, and high-fidelity audio, every detail is captured.

### Key Features

**Immersive 4K Video Conferencing:** Ultra-HD video clarity with AI-powered tracking for seamless participant framing.

**Advanced Speakerphone Technology:** Multi-microphone array with noise cancellation for crystal-clear audio.

**AI-Enabled Smart Cameras:** Intelligent auto-tracking ensures the speaker remains in focus always.

**Interactive 4K Displays:** Touch-enabled, anti-glare UHD screens for dynamic presentations.

Great communication at the enterprise level needs smart tech. Today's conference rooms use AI auto-framing cameras that keep everyone perfectly in frame, so every meeting looks sharp and professional without any extra effort.

### Key Features

**Multi-camera systems with auto-switching technology.**

**Crystal-clear communication, ensuring every voice is heard.**

**AI Auto Framing Camera:** Ensures every participant is perfectly centered in the frame.

**Wireless Bluetooth Speakerphone:** 12 built-in microphones for voice pickup and clarity.

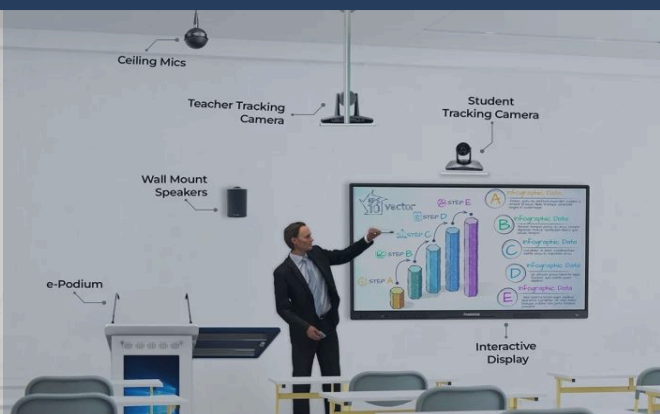

**Multi-Platform Integration:** Works seamlessly with various video conferencing and collaboration tools such as in Meet.

**Advanced DSP Audio Processing:** 12-channel Pro Audio DSP for superior sound quality.

## CONFERENCE ROOM

## DIGITAL CLASSROOM SOLUTIONS

Digital classrooms are innovative solutions that enable collaboration between teachers and students. The setup promotes dynamic teaching and ensures that every participant is actively engaged.

### Virtual Classroom Solutions for Every Learning Setup

Explore innovative hardware designed to transform traditional, hybrid, remote, and specialized classrooms into engaging learning environments.

**Studio Classroom, Digital Classroom, Hybrid Classroom, Large-Scale Classroom**

### Key Features

**New Age Learning:** Utilizes advanced technology to create an interactive and flexible learning environment for both in-person and remote students.

**Active Participation:** Encourages student involvement through real-time interaction, fostering a collaborative learning experience.

**AV Knowledge Retain:** Leverages audio-visual tools to enhance understanding and retention of course content.

**Engaging Session:** Promotes dynamic lessons with interactive displays, multimedia, and live discussions to engage students.
